

Search for Majors

This tutorial will demonstrate how to use the Search for Majors function for the ARTSYS system.

The “Search for Majors” function helps you to discover which academic programs are offered by the participating institutions in ARTSYS.

First, click on the “Search for Majors” option from either the red links located towards the middle of the page or in the “Transfer Tools” pull-down menu located in the upper right hand corner.

The screenshot shows the ARTSYS website header with a red navigation bar containing links for Home, Transfer Tools, Tutorial, Info, Contact, and Help. A dropdown menu is open under Transfer Tools, listing Course Equivalencies, Transfer Evaluations, Recommended Transfer Programs, Search for Majors, and Keyword Search. A yellow arrow points to the Search for Majors option in the dropdown. Below the header is a large image of students walking on a path, with a yellow arrow pointing to the Search for Majors option in the dropdown. Below the image is a red banner with the text: "ARTSYS is intended to aid the transfer of students from Maryland community colleges to the University System of Maryland institutions and other participating institutions." Below the banner are four service cards: Course Equivalencies (with a yellow double-line icon), Transfer Evaluations (with a yellow arrow icon), Recommended Transfer Programs (with a yellow checkmark icon), and Search for Majors (with a yellow graduation cap icon). A yellow arrow points to the Search for Majors card.

- Course Equivalencies
- Transfer Evaluations
- Recommended Transfer Programs
- Search for Majors
- Keyword Search

ARTSYS is intended to aid the transfer of students from Maryland community colleges to the University System of Maryland institutions and other participating institutions.

Course Equivalencies
Display the transferability of a course from a community college to a four year institution.

Transfer Evaluations
By entering course information from a transcript, a student can have the transcript evaluated on a course to course basis or have it compared to a recommended transfer program.

Recommended Transfer Programs
Students can look up the first two years of prescribed coursework for a particular major.

Search for Majors
Students can discover which of the participating four year institutions offer certain majors.

Using the Search Function

Then use the text box on the succeeding page to enter either the full or partial name of the major that you are interested in.

Directly under the text box is a pull-down menu that can limit the amount of institutions that will be included in the search. You have the option to include all institutions or limit the search by individual school, all “Transfer From” institutions which includes every Maryland community college or all “Transfer to” schools which include all four-year participants in ARTSYS.

Search for Majors

Place a word or a partial word in the field below to locate a Major Program of Study. Ex.: if you are interested in which institutions offer degrees in Computer Science, you could simply enter *Computer*, then click the Go button. This will give you information on *all* degree programs that reference the word *computer*.

Enter Search word:

Select Institution:

- All Institutions
- All 'Transfer to' Institutions ONLY
- All 'Transfer from' Institutions ONLY**
- Allegany College of Maryland
- Anne Arundel Community College
- Baltimore City Community College
- Bowie State University
- Capitol College
- Carroll Community College
- Catonsville Community College Pre Fall 1999
- Cecil College
- Chesapeake College
- College of Southern Maryland
- Community College of Baltimore County
- Coppin State University
- Dundalk Community College Pre Fall 1999
- Essex Community College Pre Fall 1999
- Frederick Community College
- Frostburg State University
- Garrett College

Limit :

Associate Bachelor Doctorate Post-Bacc Cert

After making your selection, you will notice a checkbox option stating “Do Not Show Related Majors”. This option determines the type of information you will receive in your list of results. If you check this option, the results page will only display majors that contain the exact search term. However, ARTSYS has the capability to produce a secondary list, which presents majors that do not contain the search term, but are related by their academic content.

Do Not show 'Related' Majors

The final option that helps you to tailor the results that this function provides is to indicate level of degrees that should be included in the results. You are presented the options of “All Degrees”, Associates, Doctorate, First Professional, Master’s or Post-Baccalaureate Certificate. Select one or multiple options that you want to be included in the results.

When all of your selections have been made, hit the red “Go” button at the bottom of the page.

Limit Selection to the Following Degrees

All Degrees

Associate

Bachelor

Doctorate

First Profess

Master's

Post-Bacc Cert

Go

Within the “Primary Matches” results are all of the participating ARTSYS schools that offer a major that contains the search term that was entered. Each listing institution’s listing also serves as a link to the homepage for their school. The results list also presents the official title of the academic program and the types of degrees that the institution awards for that major.
